EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Davis on 5/18/04.

The application has been amended as follows:

In the claims:

In claim 1, line 1, deleted "Gelled" and substituted therefor -- A gelled- - .

Cancelled claims 4 and 12 for the following reasons:

Newly submitted claims 4 and 12 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The new claims are directed to a product comprising raw materials and alkaline compounds, whereas the claims that have already received an examination and that were originally presented are product claims to a gelled feed product and claims to a method of making the gelled feed product.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 4 and 12 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
